

China's Silent War on America

Dear Friend,

If you missed any of the [first four lessons](#), it would be helpful to go back since these lessons build upon each other. We believe you will find these lessons interesting and valuable.

Below is [Lesson 5](#), "China's Drug War on America" of the 10-lesson course titled, "China's Silent War on America".

This is brought to you by fellow patriots in Ohio that have formed [Keep America for Americans](#). If this lesson was forwarded to you from a friend, please [SIGN UP to Receive Lessons](#).

Lesson 5 of a 10-lesson course: China's Drug War on America

In [Lesson 4](#) of this series we learned the goal of the CCP's United Front Work is to use any means possible to influence the minds and actions of China's enemies in an effort to create chaos and weaken those enemies. No better way to do that than to [flood America](#) with dangerous illegal drugs. And just to make sure there IS a flood of dangerous fentanyl flowing to America, [China actually subsidizes](#) this illegal "industry".

If China did not produce and subsidize the [precursor drugs](#) needed to make the deadly fentanyl and send them to Mexico to be turned into fentanyl, then our citizens would not be dying at the rate of [over 200 a day](#). Nor would we face the devastating [societal effects](#) of this crisis, including an overburdened justice system, a strained healthcare system, lost productivity, and fragmented families.

But without the fentanyl sales neither would [China nor Mexico](#) (their partner in this crime), be able to make the boat load of money they make off of the sale of the illegal products. Money which they then [launder illegally](#) in order to make it appear their ill-gotten gains were acquired through legal means - dodging taxes all the way. Remember, if your goal is world domination, as is the CCPs, this is a total win-win.

There are so many other disturbing things that revolve around the CCP's drug war on America. To learn more, please watch the first 5 minutes of this 7 minute video:

China is always looking for new opportunities to use United Front Work to damage their enemies. Sadly the legalization of marijuana in multiple states (coupled with lax drug laws) has given China the opportunity to add [fuel to America's drug crisis](#). The next example is high-grade mari-

juana in the state of Oklahoma. Please read this 9 minute article, which will give you a much better understanding of the chaos Communist China is foisting on our citizens with their high-grade marijuana operations:

[Article: Gangsters, Money and Murder: How Chinese Organized Crime Is Dominating America's Illegal Marijuana Market](#)

In the [video in Lesson 1](#) of this series FBI Director, Christopher Wray made the following statement.

*“When I talk about the threat posed by China, I mean the government of China, in particular led by the CCP. **The CCP’s dangerous actions, China’s multi-pronged assault on our national security make China the defining threat of our generation.**”*

China’s drug war on America is just one of those prongs. Lesson 6 will provide another; China’s acquisition of America’s farmland and real estate and the takeover of our food supply.

TAKE ACTION please!
